DeSabatine for Commissioner

I am Ron (Rudy) DeSabatine, candidate for commissioner and lifetime resident of Pulaski County. I have spent the last 50 years working alongside my family and friends in our family business. My goal is to represent the taxpayers in our county.

Serving on the county council, I have heard frequently: "I have to work too much," "I need more help," "I don't get paid enough."

I want to help the people who pay the county's bills. THE TAXPAYERS. The taxpayers seem to have the least say of anyone. Help me work for you. Your support and vote would be greatly appreciated!

BraunAbility and SAWs partner to build 50 free ramps in 50 days

BraunAbility, the Indiana-based global leader in wheelchair accessible vehicles and lifts, is recognizing its 50th anniversary by partnering with Servants at Work (SAWs) on an ambitious goal: to build 50 ramps in 50 days in the communities where its employees live and work.

The two organizations have layered missions dedicated to enhancing independence and inclusion for individuals with mobility challenges.

"SAWs changes lives by enabling clients to safely get outside of their own homes, and our products allow our customers and their families to connect with their communities," stated BraunAbility CEO Staci Kroon. "It makes perfect sense to mark our 50th anniversary by giving back to residents who need greater mobility freedom in our communities."

The majority of the 50 ramps will be built in the Indiana communities where BraunAbility employees live and work, but the company will also build ramps in select markets where it owns retail locations.

"SAWs is honored to partner with BraunAbility to celebrate their milestone 50th anniversary," said Bob Richmond, SAWs Executive Director. "Our missions are truly complementary, and BraunAbility is a proven leader in the industry nationwide."

The 50 ramps will be built in July and August by

SAWs and BraunAbility volunteers, completely free to the home's occupant. Each ramp is constructed of wood and adheres strictly to ADA standards. To qualify for the ramp build, recipients must have a long-term disability and have a household income below the Area Mean Income for the state of residence.

BraunAbility was founded in 1972 as The Braun Corporation in Winamac, Indiana by Ralph Braun, a wheelchair user himself who had muscular dystrophy. The company's manufacturing headquarters remains in Winamac, while the global headquarters is in Carmel. Today BraunAbility has over 1,400 employees and serves customers in more than 70 countries with a variety of mobility solutions.

Initiatives like the ramp builds are just one way BraunAbility employees serve as champions in their local communities in support of BraunAbility's Drive for Inclusion program, a united movement for greater accessibility and independence for those living with mobility challenges and their caregivers.

Donations are being accepted to help cover the costs of ramp build materials. To donate or to learn more about the program, visit <https://servantsatwork.salsalabs.org/SAWsBA50in50>.

One of the things I enjoy most is coaching women that want to open businesses. This program has enabled them to feed their families each day, pay rent and eventually school fees for their children.

Jennifer creates a wide variety of products that will be for sale at the fundraising event. I have known Jennifer for four years and have helped her in many ways with school fees, marketing and consistent friendship.

Many of you know me from the years I was proud to call Pulaski County home – living, working, raising my daughter and volunteering. The way this community bands together to help others is unmatched. I've carried that love and sense of community with me wherever I go.

My journey has led me to Kenya, and I'm asking for your help to change lives, one opportunity at a time.

Medical support is a big portion of what we do in Kibera. We are blessed to partner with two great doctors in a local clinic. They are kind, knowledgeable and easy to work with no matter the situation. Malaria, typhoid and pneumonia are the three most common issues but without the \$7-\$20 for treatment many would die. We appreciate any financial support as we provide medical care to many who can't afford such luxuries. What seems like a simple donation from you provides life-changing treatments to others.

Helping street children is my passion and I not only reach out in the local community but have taken Rian (age 8) and Kipsang (age 13) into my care with guardianship of each of them. Before moving in with me, neither boy was previously enrolled in school. Both are now reading and learning mathematics - Rian at preschool level and Kipsang at a first grade level. With additional tutoring and love, they are on a plan to eventually catch them up to their appropriate grade levels.

Basic shelter and food is a constant need for every family living in Kibera. Rian and Kipsang now have regular meals including meat. They have safe living environments and have created a bond as brothers. They are teaching me Swahili and I am teaching them English.
